Description

Collecting dolls, long one of the most popular interest in the USA, has, in recent years, also become a fast developing hobby in Britain. It is a subject which offers many variations, from the very tiny miniature dolls easily displayed in a small flat to the beautiful, larger-than-life-size baby dolls or elegant continental fashion dolls which require large rooms to house them. This wide range is generously represented here in the 60 full colour plates, which are invaluable sources of reference to the collector...
